

Publications by Frédéric Alexandre (end of 2006)

Thesis :

- [1] F. Alexandre. *Une modélisation fonctionnelle du cortex : la Colonne Corticale. Aspects visuels et moteurs*. PhD thesis, Université Henri Poincaré, Nancy 1, avril 1990.
- [2] F. Alexandre. *Intelligence Neuromimétique*. Habilitation à diriger des recherches, Université Henri Poincaré, Nancy 1, juin 1997.

Book :

- [3] R. Sun and F. Alexandre, editors. *Connectionist - Symbolic Integration : from Unified to Hybrid Approaches*. Lawrence Erlbaum Associates, 1997.

Articles :

- [4] F. Alexandre, Y. Burnod, F. Guyot, and J.-P. Haton. La colonne corticale, nouvelle unité de base pour des réseaux multicouches. *Comptes Rendus de l'Académie des Sciences Paris*, pages 259–264, 1989. tome 309, série III.
- [5] F. Alexandre, F. Guyot, J.-P. Haton, and Y. Burnod. The Cortical Column : A New Processing Unit for Multilayered Networks. *Neural Networks*, 4 :15–25, 1991.
- [6] N. Pican, J.-C. Fort, and F. Alexandre. An On-Line Learning Algorithm for the Orthogonal Weight Estimation of MLP. *Neural Processing Letters*, 1(1) :21–24, September 1994.
- [7] N. Pican and F. Alexandre. How OWE Architectures Encode Contextual Effects in ANNs. *International Journal of Mathematics and Computer in Simulation*, 1995.
- [8] N. Pican, P. Bresson, F. Alexandre, and J.-P. Haton. Artificial Neural Networks for the Presetting of a Steel Temper Mill. *IEEE Expert Journal, Special Track on Expert Systems in Steel Industry*, 1995.
- [9] Laurent Bougrain and Frédéric Alexandre. Unsupervised Connectionist Algorithms for Clustering an environmental data set : a comparison. *Neurocomputing*, 1-3(28) :177–189, octobre 1999.
- [10] Hervé Frezza-Buet and Frédéric Alexandre. From a biological to a computational model for the autonomous behavior of an animat. *Information Sciences*, 144(1-4) :1–43, juillet 2002.
- [11] Jean-Francois Remm and Frédéric Alexandre. Knowledge extraction using artificial neural networks : Application to radar target identification. *Signal Processing*, 82 :117–120, 2002.
- [12] Laurent Bougrain, Maria Gonzalez, Vincent Bouchot, Daniel Cassard, Andor L.W. Lips, Frédéric Alexandre, and Gilbert Stein. Knowledge recovery for continental-scale mineral exploration by neural networks. *Natural Resources Research*, 12(3) :173–181, Sep 2003.
- [13] C. Castellanos Sánchez, B. Girau, F. Alexandre. Approche connexionniste de la perception du mouvement, *International Journal for Information Sciences for Decision Making - ISDM*, Special Issue Colloque MajecSTIC'03, 13, Jan 2004, p. 72–81.
- [14] Nizar Kerkeni, Frédéric Alexandre, Mohamed Hédi Bédoui, Laurent Bougrain, and Mohamed Dogui. Neuronal spectral analysis of EEG and expert knowledge integration for automatic classification of sleep stages. *WSEAS Transactions on Information Science and Applications*, 2(11) :1854–1861, Oct 2005.

- [15] Jean Christophe Sarrazin, Arnaud Tonnelier, and Frédéric Alexandre. A model of contextual effect on reproduced extents in recall tasks : The issue of the imputed motion hypothesis. *Biological cybernetics*, 92(5) :303–315, 2005.

Articles in scientific popularization journals :

- [16] P. Bresson, E. Couriot, F. Alexandre, and J.-P. Haton. Utilisation de techniques neuromimétiques en laminage à froid au skin-pass de Sollac Florange. *La Revue de Métallurgie*, pages 941–947, juillet-août 1993.
- [17] Frédéric Alexandre. Modèles connexionnistes de la mémoire. *Thérapie*, (55), 2000.
- [18] Nicolas Rougier and Frédéric Alexandre. Emergence of representations through interactions of a robot with the real world. *ERCIM News*, (53) :22–23, Apr 2003.
- [19] Claudio Castellanos Sanchez, Frédéric Alexandre, and Bernard Girau. Towards bio-inspired neural networks for visual perception of motion. *ERCIM News*, (55), Oct 2003.

Book chapters :

- [20] F. Guyot, F. Alexandre, C. Dingeon, and J.-P. Haton. The Cortical Column as a Model for Speech Recognition : Principles and First Experiments. In P. Laface, editor, *Speech Recognition and Understanding Recent Advances, Trends and Applications*. Springer Verlag, 1990.
- [21] F. Alexandre, Y. Burnod, and F. Guyot. Architecture corticale pour la reconnaissance et la compréhension de la parole. In J. Caelen, J.-L. Schwartz, and C. Abry, editors, *Cognition, perception et action en communication parlée*. PUF (Collection Le Psychologue), 1993.
- [22] F. Alexandre, C. Cardeira, F. Charpillet, Z. Mammeri, and M.-C. Portmann. Compu-Search Methodologies II : Scheduling using Genetic Algorithms and Artificial Neural Networks. In A. Artiba and S. E. Elmaghraby, editors, *Production and Scheduling of Manufacturing System*. Chapman & Hall, 1996.
- [23] Y. Lallement and F. Alexandre. Cognitive aspects of neurosymbolic integration. In R. Sun and F. Alexandre, editors, *Connectionist - Symbolic Interpretation ; from Unified to Hybrid Approaches*. Lawrence Erlbaum Associates, 1997.
- [24] F. Alexandre. An analysis of connectionist-symbolic integration. In R. Sun and F. Alexandre, editors, *Connectionist - Symbolic Interpretation ; from Unified to Hybrid Approaches*. Lawrence Erlbaum Associates, 1997.
- [25] Hervé Frezza-Buet, Nicolas Rougier, and Frédéric Alexandre. A cerebral framework for the integration of biologically inspired temporal mechanisms for sequence processing. In *Neural, Symbolic and Reinforcement Methods for Sequence Learning*. Springer, 2000.
- [26] Frédéric Alexandre. Extraction d'invariants et prise en compte de la variabilité dans les réseaux de neurones artificiels. In J. Lautrey, editor, *Invariants et variabilité dans les sciences cognitives*, Cognitique. Editions de la Maison des sciences de l'homme, octobre 2002.
- [27] Frédéric Alexandre and Hervé Frezza-Buet. From natural to artificial intelligence : Numerical processing for cognitive tasks. In Paul Bourgin and Jean-Pierre Nadal, editors, *Cognitive Economics*. Springer, p. 113–130, Nov 2004.
- [28] F. Alexandre. Quels modèles neuronaux comme base de l'anticipation ?, In : L'Anticipation à l'horizon du Présent, R. Sock and B. Vaxelaire (editors), *Psychologie et Sciences Humaines*, Mardaga, Nov 2004.
- [29] Julien Vitay, Nicolas P. Rougier, and Frédéric Alexandre. A distributed model of spatial visual attention. In Stefan Wermter, Günther Palm, and Mark Elshaw, editors, *Biomimetic Neural Learning for Intelligent Robots : Intelligent Systems, Cognitive Robotics, and Neuroscience*, volume 3575 of *Lecture Notes in Computer Science*, pages 54–72. Springer, Aug 2005.

International conferences :

- [30] F. Guyot, F. Alexandre, and J.-P. Haton. Toward a Continuous Model of the Cortical Column : Application to Speech Recognition. In *Proceedings ICASSP'89 (International Conference on Acoustics, Speech, and Signal Processing)*, volume 1, pages 37–40, Glasgow (Scotland), mai 1989.
